- **VECTOR MEMORY** – REMEMBERS PAST NOTES, DECISIONS, AND CONTENT SEMANTICALLY

- **NEXUS** – PROVIDES STRATEGY ADVICE (USUALLY LOCAL OLLAMA, SOMETIMES GROK)

- **DECISION ENGINE** – AUTOMATICALLY ANALYZES EVERY NEW RECORDING AND SUGGESTS THE BEST NEXT ACTIONS

ALL OF THIS HAPPENS PRIVATELY ON YOUR COMPUTER UNLESS YOU SPECIFICALLY REQUEST HIGHER-POWERED REASONING.

*THIS IS THE OFFICIAL, PRINTABLE COMMAND REFERENCE FOR BOLT AS OF JULY 28,
2026.*
